

PRESS RELEASE

Pig, Poultry & Dairy Focus Asia 2010

Asia's premier technical livestock conference

The fourth Pig, Poultry & Dairy Focus Asia technical conference will be held on 1-3rd March 2010 in Bangkok, Thailand. After a Keynote Session on the first morning that includes the presidents of two global companies the conference divides into three parallel programmes for poultry, pigs and dairy. The pig and poultry programmes have major sessions on nutrition management, breeder management and health management and all these themes are also covered in the dairy programme.

With some 90 international speakers from Europe, the Americas and Asia, Pig, Poultry & Dairy Focus Asia 2010 is the largest international, technical livestock conference in Asia and a 'must be there event' for everyone associated with the production of meat, eggs and dairy products in the region.

In addition to providing delegates with a first class programme of technical papers, Pig, Poultry & Dairy Focus Asia 2010 will be a major networking opportunity for the key players in the poultry, pig and dairy sectors. In addition to its technical programme, the event will have a dinner at which delegates can enjoy Thai cuisine and culture.

Full details, including an up to date programme and booking details, can be sourced from www.positiveaction.co.uk.
